SUMMARY

Data scientist with 3 years of experience building machine learning models for retail and fintech.

SKILLS

Python, SQL, Pandas, NumPy, scikit-learn, XGBoost, TensorFlow, Statistics, Feature Engineering, Docker, Git, AWS, Jupyter

EXPERIENCE

Data Scientist, RetailCo Analytics - Jan 2024 - Present

• Built churn prediction models with scikit-learn and XGBoost, improving recall by 18%.

• Wrote SQL and Pandas pipelines for feature engineering and EDA on 20M rows.

• Ran A/B testing and hypothesis testing for pricing experiments; applied statistics to size effects.

• Deployed models on AWS using Docker; tuned hyperparameters with cross validation.

Data Analyst Intern, FinServe - Jun 2023 - Dec 2023

• Cleaned data and built regression and time series forecasting models in Python.

EDUCATION

B.Tech in Computer Science, National Institute of Technology, 2019 - 2023, CGPA 8.7

PROJECTS

• Customer segmentation: clustering with scikit-learn and Pandas, visualised in Jupyter.

• Sales forecasting: time series model in Python with a deep learning baseline in TensorFlow.

CERTIFICATIONS

Deep Learning Specialization; AWS Cloud Practitioner
